

Local Lawncare Business - Postal leaflet - This was supplied to me as a finished article – the copy however lacked weight, punch and decent formatting, so I rewrote it and suggested how to more effectively organise the information.

Hi,

As I'm sure you're all too aware, your lawn requires a great deal of care and attention (and more than a little love!) to keep it looking perfect. Even then, Mother Nature has a nasty habit of making life difficult.

That's where [Company Name] can help. As qualified Professional Lawn Care Specialists with many years' experience working on golf courses throughout Surrey, we specialise in all aspects of lawn maintenance and renovation:

- **Mowing**
- **Weed and Feed plans**
- **Complete Overhaul**
 - Aeration
 - Scarification etc

It's never the wrong time of year!

Over the coming months, we're happy to spend some time keeping your lawn looking at its best, providing general grooming services, including

- **Clearance of leaves** and general debris

By spending a little time on your lawn now you can give it the best possible start for the summer months - and those glorious barefoot barbecues.

If you fancy putting your feet up indoors now, and outdoors once the sun's back out, **give us a call now!**

The Ultimate Golf Accessory

If you're a serious golfer, it's surely crossed your mind at some point how fantastic it would be to have your own private green to practice on. If your garden is big enough, you may even have thought about putting in an entire hole!

Now, you can make it happen.

[Company name]'s team of fully-qualified green keepers have all the skill and experience required to install and maintain... well, as much golf course as you can fit in your garden!

We can create your surface to USPGA specs, giving you the chance to practice on the same greens the pros use. Or, if you'd prefer to get one up on your local rivals, we can use the same grasses as your local club, shaving vital shots off your score.

What's more, if there's a touch of the perfectionist / masochist about you, we can even install professionally constructed bunkers!

Whatever you choose, you can rest assured you'll enjoy full irrigation and drainage, and we'll always be on hand to ensure everything remains in tip top condition.

Give yourself the edge.

If you fancy always being able to keep your game sharp, or know someone who could do with a little extra practice, please **contact us now** for a quote.
